-

Work Experience

Software Developer

08/2023 to Current

Tata Consultancy Services

Gandhinagar

- Designed and developed scalable SaaS applications using ReactJS and NodeJS for dynamic user experiences.
- Built a real-time Livechat platform capable of supporting over 100,000 requests per hour and 10,000 concurrent users using WebSockets.
- Integrated Redis to enable high-speed message pipelines for reliable, real-time data transmission.
- Mentored and trained three junior developers, guiding them in ReactJS, NodeJS, and best coding practices to ensure consistent code quality and team productivity.
- Utilized MySQL with ACID compliance for secure and fault-tolerant data handling in high-traffic environments.
- Enhanced system performance by optimizing infrastructure, resulting in a 20% reduction in response times and a 15% increase in throughput.
- Collaborated with cross-functional teams in Agile/Scrum environments to drive rapid delivery cycles and continuous integration.

Jr. Web Developer

01/2023 to 07/2023

Aerolex Labs

Ahmedabad

- Spearheaded full development lifecycle of Training and Placement Cell Management System, enhancing operational efficiency by 60% through automation.
 - Developed user-specific modules with hierarchical access control for secure, role-based data access.
 - Ensured data integrity and secure authentication across all system modules.
 - Collaborated with cross-functional teams to refine features based on stakeholder feedback in an Agile environment.
-

Education

Bachelors of Computer Engineering: Computer Engineering

01/2023

BIRLA VISHVAKARMA MAHAVIDYALYA

Anand, Gujarat
